RETRO

REMIXED

for the 21st Century

RETRO - The Essence of Espresso

We've come a long way in 40 years

RETRO, the latest innovation from Fracino, reflects the company's upbeat developments.

A stylish 2 group lever espresso machine reminiscent of the swinging era of the pulsating 1950's coffee bar.

Manufactured entirely in highly polished stainless steel and constructed using the finest quality components, this 'step back in time' machine is in tune with modern safety standards and is extremely user friendly. Available as standard or gas powered - for espresso on the move.

Technical Specifications

	Standard	Gas Powered
Model	FCL2	FCL2 Gas

Key Features

Standard and Gas Powered

- Compact design.
- Large capacity top quality copper boiler heated by a multiple looped element.
- Pressure controlled by a triple contact pressure switch.
- Brass-bodied, smooth-action lever group with stainless steel shower plate.

Gas Powered only

- Highest power LPG system in the world provides unrivalled output of coffee, hot water and steam.
- LPG or butane fuelled burner equivalent to 4 kw power rating, fitted with a 37/30 mbar regulator, piezo ignition, pilot light and flame failure safety device.
- Boiler pressure is controlled by a gas pressure valve set at 1.0 bar with low flame adjustment.

C6 Grinder

Counter Top, Under Counter and Under Grinder Knock Out Drawers

High grade polished stainless steel knock out drawers for the used coffee grounds designed for the espresso machine or coffee grinder to stand on. The under counter knock out drawer comes complete with runners designed for integration into the counter or bar underneath the espresso machine.
